

38 Congress Street  
Asheville, N.C.  
June 10, 1945-

Dear Mr. Manley,

I have planned to write you for sometime, but have been so busy until I haven't had time. Please inform the league meeting or members concerning our working agreement. Dr. Jackson had promised to open up the cases against Alexander and Brammer. As soon as the working agreement, they have started giving me trouble about one of my players. I understand, not officially that he has been turned over to Washville. Mr. Horn, the closer of this letter is my secretary, has a very good knowledge of my problems with league etc. Anything you can do to help me will be appreciated. It is impossible for

me to attend meeting - I am in the  
midst of beginning my summer recreation  
program. Let me know if you plan to  
come this way this summer - we  
are having nicely here and I have  
two good towns. Mr. Johnson wrote  
me about playing you in the Virginia  
area - also a night game in  
Newark. My team is coming along  
nicely, but it is riddled with  
injuries at this time - should be  
at full force again in about a  
week. If games in this section  
can Virginia and your section -  
please advise Mr. Brown in order that  
he can include same in his  
schedule for second half.

Yours truly,  
C. L. Spoor
